No. 4125 Dated 1-4-1918 Received 5-4-1918

Diary No. 2496	Enclos. 2 3 Spare Copies.	Serial No. 1

BRIEF ABSTRACT OF LETTER.

Forwards for orders a project amounting to Rs 19,200. for water supply to malvalli town.

NOTES AND ORDERS.

This Communication seems to be in reply to this office letter no 7848/ml 164-13-12 of the 13th February 1914, forwarding for scrutiny and opinion of the Central Sanitary Board, plans and estimates for Rs 6,296/- for improving the supply of drinking

NOTES—First Sheet.

water in Malvally town.

(2) The estimates have now increased to Rs. 19,200, nearly 3 times the original estimate. The municipal Council have to be consulted as to whether they accept the project and if so, how they propose to finance it.

(3) The financial condition of the Malvally municipality is as follows:

opening Balance	Rs	1757
Receipts	Rs	6445
Total	Rs	8202
Expenditure	Rs	6799
closing balance	Rs	1403

(4) When submitting the original estimate for Rs 6296/- the Deputy Commissioner, Mysore District in his letter no 367 dated 28th Nov. 1913 pointed out that the municipal Council prayed for the grant of a loan to meet the cost, the loan being discharged by annual instalments.

8.4.18 (5) Half the cost of the Scheme may be met out of State funds. As the estimate is not very large, it may not be desirable to require the Mulky to raise a loan from the

NOTE—Contn. sheet.

(6) Secy. to Govt. Draft order enclosed

16.9

(7) Member's orders on the note -

"The Malvalli case seems to be ready and should be put up with a draft order sanctioning half the cost provided there is a resolution of the Municipal Council that they will bear the other half."

The original ~~estimate~~ project prepared by the P.W.D amounted to Rs 9000/- and this was increased to Rs 19,200 on the recommendation of the Central Sanction Bd.

The only resolution of Municipal Council is that of 30th April 1913 and it is to the effect that the amount to the credit of the Municipality may be utilized for this work & that the remaining amount may be advanced by Govt as a loan. It is therefore not clear

Bangalore.

To

B. Ramaswamaiya, Esq., B.A., B.L.,

Secretary to Government,

Revenue Department.

SIR,

I have the honour to forward herewith, for favour of orders, a project amounting to Rs 19,200 for water supply to Malvalli town.

2. The proposals are, to improve the present source of water supply. The capacity of the main tank called Gandikere will be increased and the necessary sluice provided to feed the Kudineer katte, the pond from which water is now being taken.

3. The project was forwarded to the Central Sanitary Board for opinion and their suggestions are adopted in preparing the estimates.

But, as the levels permit of providing stand pipes for drawing water at a distance from the pond, due provision has been made for fixing 10 fountains in place of Myer's pumps recommended by the Board. The object in either case is to prevent pollution of water.

The compound wall round the Kudineerkatte has been provided for as per Board's recommendation.

12.7.18.

NOTE ON MALVALLI WATER SUPPLY.

The Taluka-town of Malvalli in the Mysore District has a population of 5,461 as per Census of 1911.

2. The sources of water supply at present are a few wells and a pond called Kudineerkatte. The pond is fed from a minor tank called Gendekere. It is reported that the supply in the pond is very scanty during the summer months. This is due to the small capacity of the Gendekere tank and the unsatisfactory condition of bund, &c., resulting in wastage of stored water.

3. A pumping scheme for supplying water to the town from a major tank called Marahalli tank, which has a large storage but is 1½ miles distant, has been investigated. The cost is prohibitive. The pumping scheme was not considered further.

4. It is now proposed to improve the minor tank Gendekere by raising the weir by 2 feet. The pond will be fed through a properly constructed sluice.

5. The pettah portion of the town is at some distance from the Kudineerkatte. The relative levels admit of a supply of

The objection raised by the public of Malvalli in their telegram dated the 5th July requires to be considered.

The opinions of the Malvalli Municipality and of the Deputy Commissioner may be obtained and the case sent up through the Second Member.

water to the pettah by gravitation from the pond. Laying pipes and a service reservoir are estimated to cost Rs 12,000 This portion of the work is proposed to be deferred for the present on account of financial and other considerations.

6. As levels permit of providing stan pipes for drawing water at a distance fro the pond, due provision has been made for fixing 10 fountains. By this means, the pollution of water in the pond is prevent ed.

7. The scheme was, in the first instance, forwarded to the Central Sanitary Board for opinion. Their suggestions have been adopted.

8. The estimate amounting to Rs 19,20 has been submitted to Government in the Revenue Department and orders are awaited

OF HIS HIGHNESS THE MAHARAJA OF MYSORE,
~~XXXXXXXXXX~~ REVENUE DEPARTMENTS.

SIR,

With reference to your letter No. 6633 Ml. 174-17 dated 25th May 1918 forwarding estimates and plans anent a project for improving water supply to the Malavally town at an estimated cost of Rs. 19200 and enquiring whether the council are agreeable to bear one-half of the -- initial cost and the annual maintenance charges, I have the honor to -- state that it was resolved by the Municipal Council at their meeting -- held on the 30th June 1918 that one half of the initial cost should be subscribed by the people and that the recurring cost of annual maintenance be met from the anticipated increase in the Municipal revenue by the revision of house and mohatarfa taxes. The council are of opinion that owing to heavy expenditure in the Municipality they are not in a position to meet one half of the initial cost from their funds and the levy of water tax would operate as a hardship on poor people.

2. It is reported that public subscriptions to the extent of -- Rs. 2065 have already been promised, that a sum of Rs. 235 was collected on the spot and that the people would be induced to subscribe if the -- work is started soon.

3. The actual income and expenditure of the Municipality for the past 3 years are noted below:--

Year	Receipts		Expenditure	
	Estimate	actuals	Estimate	actuals
1915-16 Rs.	5512	4364	5082	4500

Submitting a report re funds required for the water Supply project of Malavalli Municipality.

Early

M

GBPM—21-9-1910—1,000

It will be seen from the above that the actual expenditure for --- 1915-16 and 1916-17 has exceeded the actual income. The expenditure for 1917-18 is less than the income because there was no outlay on account of Public Works. The actual opening balance for 1917-18 was only Rs. 1668 which is nearly 1/3 of the annual receipts. The financial condition of the Municipality is thus in an unsound condition and the council is not in a position to meet either one-half of the initial cost or the annual maintenance charges from their funds. I have therefore informed the Municipal Council that until the Council improves its revenue by revising the house and mohatarfa taxes, or otherwise, and until it shows ways and means for meeting half - the initial cost, the project has to lie over.

4. The enclosures received with your letter under reply are herewith retransmitted.

I have the honor to be

Malavalli water supply

Proceedings of the Government of H.H.
the Maharaja of Mysore.

Read:-

Letter No.4135 dated 1st April 18
from the Chief Engineer submitting an
estimate amounting to Rs.19,300 for
water supply of Malvalli Town.

2. Correspondence ending with let
No.D1Dis.73 L.B.18-19 dated 31-8-191
from the Depy.Commr. Mysore District
reporting that the Munl.Cl. of Malva
are not in a position to contribute
moiety of the initial cost of the pr
and that the scheme has to lie over
the Munl.Cl. improve their finances.

Order--No. R.16901-4 dt 30/6/1

Though the Munl.Cl. are unable t
finance the scheme, their proceedings
of the 30th June 1918 show that the
people are anxious to have the water
supply project executed by subscribi
towards the initial cost of the proj
and the Munl.Cl. propose to revise t
assessment on houses and shops for
meeting the maintenance charges.

3. As the scheme is a comparatively
cheap one and all that is required
of the Munl.Cl. is to raise a sum of
Rs.9,600 partly by a loan if they ar
not able to raise subscriptions to t
full extent and as the maintenance
charges are not likely to be high an
can be met by a suitable revision of
the assessment on houses and also by
levy of water tax and enhancement of

existing rates if necessary, Govt. a
pleased to sanction the estimate for
Rs.19300 and make a grant of Rs.9600
the Muni.Cl. for executing the proje

3. The Deputy Commr. is requested
call upon the Muni.Cl. to take promp
steps to ~~collect subscriptions~~ raise the balance and s
mit a draft prospectus ~~for raising a~~ floating loan in the open market along with -
their resolution in re: the action -
proposed to be taken for raising fur
in order to meet the annual mainte-
nance charges and interest payable o
the loan and provide for a sinking -
fund for the discharge of the loan -
within a reasonable period.

the Maharaja of Mysore, Revenue Department,

Bangalore.

Sir,

With reference to Government Order No.R.16901-4/Ml.174-17-5 dated the 30th June 1919 and subsequent correspondence ending with your D.O. letter No.R.12334/Ml. dated the 24th April 1920 requesting the submission of the resolution of the Municipal Council of Malavalli in the matter of taking prompt steps to raise the balance of Funds required for the ~~ex~~ecution of the Water Supply Project in the Town, I have the honour to state that the Municipal Council at their meeting held on 28th August 1919 have resolved that the above project might be abandoned as the income of the Municipality has been reduced owing to the exclusion of the Dakhale villages from the Municipality. It is further argued that the people are also not ~~in~~ in favour of the project as the distance from their residence to the fountains will not be less than what it is now and as sufficient number of fountains cannot be provided so as to accommodate all those that go there for water.

A copy of the resolution ~~of the Council~~ is enclosed.

I have the honour to be,
Sir,
Your most obedient servant,

V S Venkatachar

Assistant Commissioner,
For Deputy Commissioner,
(Absent from Head Quarters.)
